****SPECIAL NOTICE****
The Customer/Manufacturer should assure himself, by preliminary testing and evaluation, that the dye fastness of the thread is suitable for his intended uses. Gunold USA threads are manufactured and quality controlled to the very highest standards possible. However, since we have no control over washing, dry cleaning, pressing or weather conditions (when used on an article of items that will remain exposed to the elements), and since the value of the threads is so disproportional to the value of the material into which it is sewn, we are not and cannot be held responsible for any damages that could occur.
